iOS – Exercise
Happy Halloween

Hey.
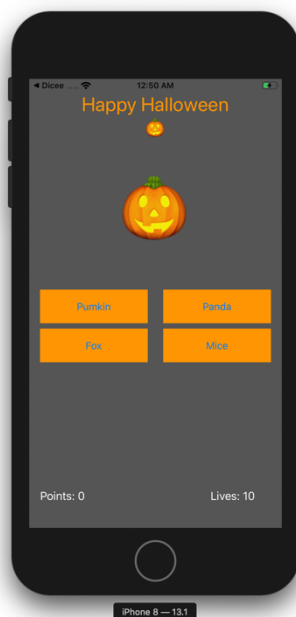

Part 1:

You are supposed to build a fun matching app to match an image with its text. Here is the initial UI, you are supposed to create.

Just note that in the following UI, there are just labels and Buttons. But you are free to choose your custom UI for implementation.

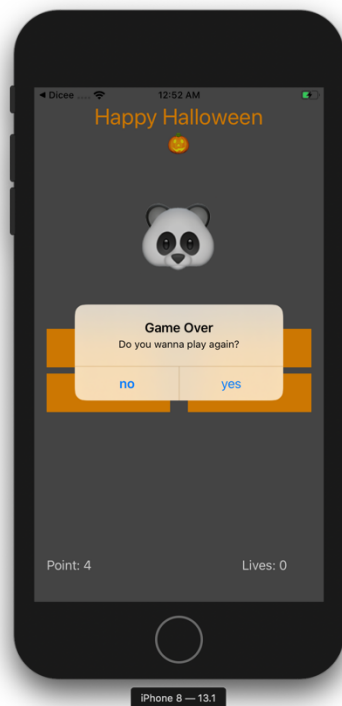

When you press start, random image and a random text on the buttons is selected.

iOS – Exercise
Happy Halloween

You have 5 lives to make mistakes and after that the program should show an alert with the title "Game Over" and choices to play again or no. For every correct answer you get a point as well.

Part 2:

You are supposed to add a timer for the game so that if the user do not choose in for example 5 seconds he loose lives.
