Exercise 3

For this exercise you need to choose if the number that appears on the screen is prime or not. Yu should note that you have a timer like the Halloween exercise that if it pass you have the next question. Numbers are appearing on the screen randomly. Below you can see some screenshots of the app. When the answer is correct you see a tick mark but if the answer is wrong you have a cross mark. Yu should note that that in this exercises you have just labels and image views and there is no button

Image resources are also uploaded.
